

Mentors, Judges, Organizers

Your Facilitator:

Ryan Burwell

MaRS Discovery District

A teacher by training and entrepreneur by disposition, I built a career by identifying and pursuing opportunities for innovation in the education system. After nine years designing and delivering interdisciplinary curriculum for private high schools in Toronto, I founded Scale Educational Design - a consultancy that collaborates with a wide variety of innovators to bring new educational ideas to life.

Since starting Scale in 2013, I have had the opportunity to collaborate with some truly remarkable organizations ranging from bootstrapping start-ups to established corporations. I look forward to continuing to learn from my growing network of entrepreneurs, educators and dreamers as we work together to engage with the rich challenges of education in the twenty first century.

Saturday 9am - 1pm

Don Bourne

Client Service Advisor
Henry Bernick Entrepreneurship Centre
<https://ca.linkedin.com/in/donbourne>

“Helping Start-up businesses and seasoned entrepreneurs make \$\$”

As a small business owner he understands the practical reality it takes to launch, manage and grow a new business. Don is the Client Service Adviser and a business mentor at the Henry Bernick Entrepreneurship Center in Barrie; he also works with the South Georgian Bay Small Business Enterprise Center managing the Starter and Summer Company programs. He offers mentorship to client's through the Futurpreneur, Power Up and Orillia CDC programs. Don helps entrepreneurs find the right resources and tools to build strong foundations for their business models. He believes in “turning on the headlights” through strategic planning, identifying the challenges and opportunities that lead to successful business ventures.

Sunday 1pm - 3:30

Yuanyuan Wu

Assistant Professor

Department:

Business Administration

Email: ywu22@lakeheadu.ca

Phone Number: (705) 330-4008ext. 2630

Dr. Wu's research interest focuses on the synergies among capability development, entrepreneurship, and alliance networks. Firms develop new capabilities to adapt to the rapidly changing internal and external environments. They compete based on the constantly expanded capabilities of their own and, as well, on their ability to leverage the resources and capabilities possessed by their collaborative partners and embedded in the networks in which they are members. This process involves entrepreneurial mindset and actions and, in many cases, contributes to the product and process innovation of the firm. Dr. Wu has studied these topics in the contexts of the Canadian innovation-based industries and the emerging high-tech sectors in China. Extending her research in new directions, she has recently received SSHRC funding for a research project that focuses on international collaboration in the aerospace industry.

Lifeng Geng

Dr. Lifeng Geng received his Ph.D. From University of Alberta. He has 30 years of industrial and academic experiences in the field of international marketing and held membership on the board of both Canadian and Asian firms. His areas of research include consumer choice behavior, mode of control for multinational firms, country of origin effect, staffing policies for multinational firms, and international trade policies. He specializes in structural equation modeling, conjoint analysis, and discrete choice modeling. His current research focuses on studying tourists' choice behavior within a dynamic competitive environment. His areas of interest include:

Judges

Chad Ballantyne

The Creative Space/Rhubarb Media/StartUp Barrie

<https://ca.linkedin.com/in/chadgrballantyne>

Chad Ballantyne is a father of three and husband for 25 years. He's spent the last 30 years of his life in some form of creative communications as a speaker, musician, producer, and designer. He's now the Creative Director of Rhubarb Media, a design studio in Barrie and is the "Tummler" at Simcoe County's first coworking space, and downtown Barrie's entrepreneurship hub, The Creative Space (TCS).

TCS is located in a beautifully redeemed century building in downtown Barrie and has become a hub for entrepreneurs, startups and other digital nomads since 2009. It's a community space where business, art and life collide. Chad's passion is to help others do what makes them come alive. He launch Canada's first Community Launch incubator program called smOffice and is notorious for creating connections wherever he goes.

InvestBarrie

Neeta Grover

<https://ca.linkedin.com/in/neeta-grover-peng-masc-mba-93973528>

Skills: product management, SR&ED and Global Incentives, mentorship, incubation and acceleration, software development

With over 15 years experience in software development, I've been a part of and led teams to design, develop and scale innovative products in the areas of machine vision, control systems, telephony and digital media. I've led collaborative teams of technical staff and business developers to bring innovative ideas to life in order to find better ways of accomplishing customer objectives.

I've worked with a diverse group of clients to help them strategize their technology roadmaps, create business cases for technology, lead innovative initiatives, implement process improvement programs and examine technology operations and products for qualification of global tax incentives and grants.

EntreLaunch Inc.

Rebecca Palmer

rpalmerca@gmail.com

Telephone 705-791-2320

<https://ca.linkedin.com/in/rebeccalynnpalmer>

Skills: social media, business strategies, lean model canvas, strategic shifts, beneficiary analysis, social entrepreneurship, research and validation

Rebecca is a serial entrepreneur and community builder with a mission to inspire innovation, transform lives and connect communities.

A lifelong learner, she stays up to date on new trends, needs and strategies with a focus on global entrepreneurship, strategic shifts and social good. In 2014 she recruited 52 entrepreneurs from around the globe to help form the groundwork for EntreLaunch Foundation resulting in a second place finish in a global business plan pitch. In 2012, Rebecca's StartUp Weekend team placed second for their FreshCube pitch on vertical hydroponic farming inside repurposed cargo containers.

Rebecca is a founding member of StartUp Barrie community, was a delegate to the G20 YEA in 2014 and a delegate at the GEC in 2016. Rebecca also sits on the Georgian College BENT (Entrepreneurship) Advisory board and was previously vice-chair of the Barrie Public Library Board.
